

## Pebble Mobile: Features

To access Pebble Mobile from your mobile phone, you will need to access your account from a computer first.

If this screen pops-up when you log in to PebblePad, create a password here to access Pebble Mobile. This can be the same as your PebblePad password.

If you have previously set a password but can't remember it you can access it through the **tools > settings** menu in PebblePad. Once in settings click on the key/tools icon in the bottom toolbar.

This will open the password page where you can add or amend your 'second' password.

**TIP!** Not all users will be required to create a second password, and can log in to the mobile site with the usual log in details.

This is the first screen of Pebble Mobile. You can log in here.

Pebble mobile is accessed by adding '/mobile' to the end of your normal PebblePad URL. For example:

[www.pebblepad.co.uk/eportfolio/mobile](http://www.pebblepad.co.uk/eportfolio/mobile)

[www.pebblepad.com.au/rmit/mobile](http://www.pebblepad.com.au/rmit/mobile)

<http://eportfolio.wlv.ac.uk/mobile>

The URL can be accessed with any browser – though it is optimised for use with very simple browsers typically found on mobile devices and phones.

|    |    |    |    |    |    |
|----|----|----|----|----|----|
| 01 | 02 | 03 | 04 | 05 | 06 |
|----|----|----|----|----|----|

Because your phone or device is connecting to the internet you may incur data charges.

Pebble Mobile will support:

- Activities
- Abilities
- Achievements
- Action Plans
- Experiences
- Meetings
- Thoughts

**Create an Asset** creates a simple asset with only the required fields – **title** and **description**. To create assets with full feature sets, select the asset type, for example **Create a Thought**.

When you save an asset it will save to your Pebble account; additionally you can choose to post your new asset to a blog or CPD record on saving – these will appear in the **send to** drop-down box.

You can view your assets by selecting **View Assets** from the main menu screen.

At the bottom of the menu screen, you can **Log out** from the site. Remember to do this whenever you finish using Pebble Mobile.
