Full Stack Software Developer

PebblePad is expanding! We build big complex web applications and this is an amazing opportunity to join the top-notch team behind our award-winning software.

Job Description

About you – We're looking for someone with the potential to do great things. We need you to be a strong collaborator and able to succeed in a fast-paced environment. You need to have some development experience already, at least 2 years building web applications. The more experience you have in the below stack the better:

- JavaScript
- AngularJS/Angular
- HTML / CSS
- C# .NET
- SQL
- MongoDB

What you'll be doing

- Developing new features for PebblePad and helping with ongoing maintenance.
- Get involved in concepting ideas and prototyping (we have a UX specialist who helps out here too)
- Working collaboratively with your Scrum team to produce elegant solutions to complex problems and improve the way we work
- Learning! You will be keeping up with best practices and emerging technologies to help us stay at the forefront of our industry.

Why PebblePad? We are a multi award-winning company – big enough to operate globally, but small enough to value every team member within a culture that's inclusive, fun and vibrant.

Location: Telford (some home working is available)
Start date: ASAP
Salary: 22k – 32k (based on experience + benefits)
Position: Fulltime, Permanent

IMPORTANT: We regret to inform that we cannot sponsor work visas at this time.

To apply

Please send a copy of your CV with a covering letter telling us why this job is for you to
